**Brief Description of Project**

The pavilion field is rented by CARE for the benefit of the local community. Access to the field is limited and improvements are necessary from both a safety and DDA perspective. The gateway will be reconfigured to allow much greater access.

Also to improve community use of the Pavilion a new shed/store is required. A base will be built and a small container placed to store items currently in the pavilion and thereby enable much greater access to the available space for use by CARE, the school and community hire activities.

The Gell trustees have been approached and given permission for these works.

How will the success of the project be measured? By greater use of the space in community events and the avoidance of any H&S issues or accidents accessing the field.
