**Brief Description of Project**

This proposed project is the replacement of the two oldest benches on the old village green with two remembrance benches that commemorate the fallen soldiers of the British Army. It is simply intended to act as a reminder of the sacrifices that have been made and create an opportunity for people to pause and remember what was given up for our freedom today.

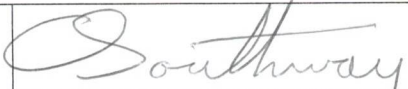

How will the success of the project be measured?

Success is triggering people to think about the wars and sacrifices that have happened in the past. It's difficult to measure how much more people will think about this because of the benches, but we anticipate the benches will be a focal point for visitors and locals alike.

**Project Costs:**

As far as we can see, there is only 1 company making these benches, so comparative quotes are not available. A small amount of infrastructure work is required.
